TechServe® 360

Payroll | HR | Benefits | Insurance | Business Intelligence

Focus on growing sales and recruiting **instead of your back office.**

TechServe 360 frees up your team's time and attention to work on what's most important.

TechServe 360 is a streamlined all-in-one payroll, HR, and benefits management service. Simply put, we help support your company's growth and profitability by taking on core back office functions.

Thinking about a PEO? Think Again.

TechServe 360 offers all of the benefits of a PEO—like the efficient outsourcing of key back office functions—but it's decidedly different. You retain the status as sole employer, avoiding co-employment and the problems it creates. That's just one of the service's many advantages.
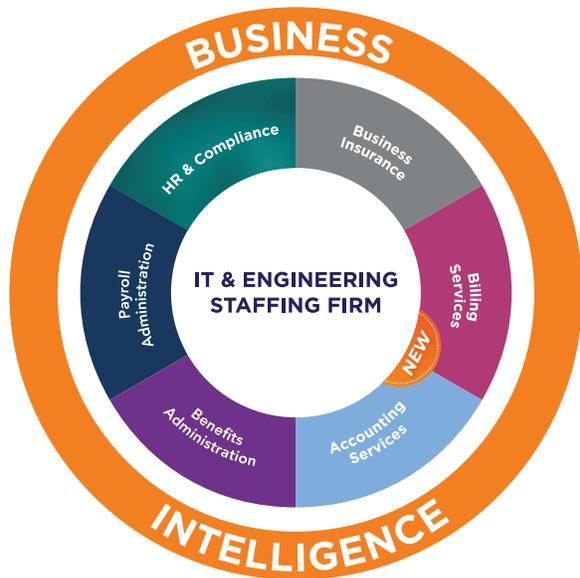

- ✓ **Streamline back office operations**
- ✓ **Stay ahead of ever-changing compliance obligations**
- ✓ **Mitigate the risks of using a remote talent pool**
- ✓ **Avoid disruption caused by staff absences and vacancies**
- ✓ **Access a broad spectrum of employee benefits**

Just for IT & Engineering Staffing Firms

TechServe 360 comes to you from TechServe Alliance, the definitive source for industry best practices. It's designed and delivered by TechServe's experts in back office operations and federal, state, and local compliance.

INTELLIGENCE

Services Designed Specifically for Your Business from a Trusted Partner.

With more than 35 years of experience serving the industry, TechServe Alliance is uniquely qualified to deliver back office services specifically tailored to the needs of IT & Engineering staffing firms.

Payroll
We prepare, process, and file payroll and provide timely reporting

HR Administration & Compliance
We keep you compliant with the ever-changing federal, state, and local legal and regulatory landscape

Benefits & Insurance
We streamline benefits enrollment and provide high-touch support

NEW! Billing & Accounting
We manage client invoicing, issue monthly financial statements, handle accounts payable, calculate commissions and more

Ready. Set. Grow.

Put your time and effort where it counts: driving the growth and profitability of your IT & Engineering staffing firm—not managing the complex and cumbersome tasks related to payroll, HR, and benefits.

Take Control with TechServe 360

Say goodbye to your siloed back office relying on multiple platforms and providers, say hello to seamless service. When you choose **TechServe 360**, you provide a better experience for your internal team and consultants.

As a unique benefit, **TechServe 360** offers a business intelligence dashboard of key performance metrics providing leaders with actionable insights.
