Ramp recruiters 50% faster with great adoption

**Built-in power.**  
**Real-world impact.**

Tracker is more than an ATS—it's your end-to-end recruiting operations platform. Combine ATS, CRM, automation, analytics, marketing, and intelligent AI assistance in a single, seamless experience. Tracker delivers power, precision, and partnership—not just software.

## Unified ATS + CRM

Stop toggling between disconnected tools. Tracker unites recruiting, sales, marketing, and ops with shared workflows, notes, and activity streams—all in one system.

## Real-time, human support ★★★★★

Get live, knowledgeable help, not bots. Tracker offers onboarding, live training, expert Q&As, and access to Tracker Academy with thousands of help articles.

## Automation & AI that saves time

Build customized workflows by team, division, or job type. Automate parsing, outreach, updates, and more.  
**Bonus: AI tools are included in every plan, at no extra cost.**

## Better data for smarter decisions

Track pipeline velocity, recruiter activity, client ROI, and more—all from one dashboard. Use predictive analytics to enhance hiring decisions and identify expansion opportunities.

## Secure & compliant

SSO, audit logs, daily backups, and configurable workflows ensure you're protected. Tools like compliance automation and Onboarding+ keep it that way.

## Fast, phased go-live

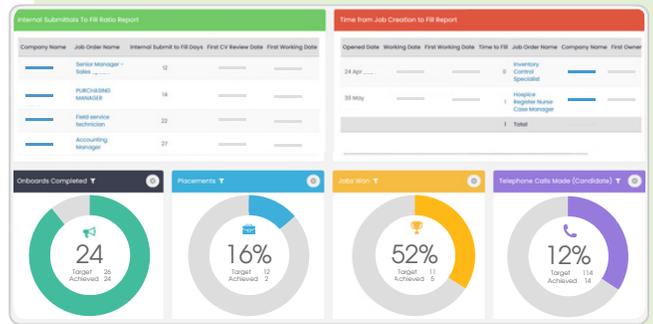

Start fast and smart with launch plans tailored to your timeline. Go live in phases (front office first, back office next) and minimize disruption during peak seasons.

Let's build something, better, together.

# The Bottom Line
